PRODUCT INFO

Product Name : Premium Belle Enzymes (Very Berry, Very Sweet, Very Bean)
Composition : 1box/ 3g x 30 packs

Concept

High activity natural fermented enzymes, Belle Enzymes

1 million enzyme activity (indicated enzyme activity of 900,000) verified, Belle Enzymes

Premium Belle Enzymes is indicated with 900,000 enzyme activity, but actually its enzyme activity of 1 million is verified (α -amylase, protease).

Outstanding breakdown of carbohydrate and protein!

Premium Belle Enzymes contains α -amylase (breakdown of carbohydrate) and protease (proteolysis).

Fermented enzymes mixed with 70 types of grains, vegetables and fruits

Premium Belle Enzymes contains fermented enzymes that use strictly picked 70 types of grains, vegetables and fruits to be fermented with beneficial intestinal bacteria.

Synbiotics content

Lactic acid bacteria mixed with 21 types react with fructooligosaccharide for synergic effect in the intestines.

Strictly picked supplementary ingredients

Healthy supplementary ingredients are contained to help the digestion and nutrition supply. **[Multi-vitamin + Collagen + Dietary Fiber + Amino Acid mixed powder]**

Premium Belle Enzymes with safe ingredients and no 5 ingredients

Premium Belle Enzymes does not contain HPMC, Magnesium Stearate, Silicon Dioxide, Preservatives and artificial coloring.

3 delicious tastes for everyone

There are 3 tastes of Premium Belle Enzymes: Berry, Injeolmi and Sweet Potato fit for tastes and preference of everyone.

Produced in the facility certified by GMP and HACCP

Premium Belle Enzymes is produced in the facility with designated manufacturing equipment and clean room system, to which outstanding health functional food manufacturing standards are applied, to be safe and reliable.

	표시역가	실제역가(베리베리)	실제역가(베리빈)	실제역가(베리스윗)
1포 함량 / 3g	904,000 unit	1,095,969 unit	1,072,075 unit	1,099,725 unit
α -아밀라아제	900,000 unit	1,091,349 unit	1,067,207 unit	1,094,923 unit
프로테아제	4,000 unit	4,620 unit	4,868 unit	4,802 unit

POINT

- High activity natural fermented enzymes
- Contains ingredients that help digestion through fermentation
- Fermented enzymes mixed with 70 types of grains vegetables and fruits
- Lactic acid bacteria fermented culture medium contained
- Multi-vitamin, collagen, dietary fiber and amino acid mixed powder contained
- Enzyme food made with premium ingredients
- Delicious 3 tastes of Berry, Injeolmi and Sweet Potato for everyone
- Manufacturing process certified by HACCP
- Produced by the enzyme experts in a specialized enzyme manufacturing facility
- Non-GMO ingredients used

Product KSF (Key Selling Factor)

RECOMMENDATION

- For those who are looking for enzymes with delicious taste
- For those who are looking for high activity enzymes
- For those who are looking for enzymes that help the diet
- For those who are looking for products satisfying both enzymes and nutrient intake
- For those who are looking for products produced in a reliable manufacturing facility
