COMPANY OVERVIEW

THEBAMBOO Co., Ltd. was established in 2007 and our brand BambooBebe begins with a Korean mom for her son. We are the 1st bamboo baby premium brand in South Korea providing premium baby textile products with self developed functional material. All the manufacturing process is 100% made in Korea and we are the 1st and only brand who annually renew oeko–tex certification(class 1) in Korea.

Why we choose Bamboo Fabric?

1. Breathability

Bamboo fiber has a special structure that allows high breathability and brings cool feelings. That's why it is good for babies who have higher body temperature than adults.

2. Absorbent than cotton

Bamboo fiber has micro holes and micro gaps in the middle and surface areas. It absorbs baby dribbles and sweats faster than cotton, and keeps our skin clean and fresh.

3. Soft touch

Bamboo fiber has a soft and silky touch like silk that has no irritation for the skin.

4. Non pesticide and chemicals

Bamboo grows up with sunlight and water, it does not need any pesticides or chemicals. That's why bamboo fiber is an eco–friendly material that does not damage nature.

BAMBOOBEBE

BAMBOO MATERIAL

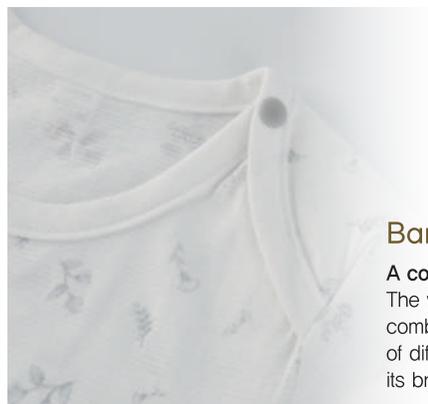

BambooBebe has a passionate R&D team that self develops functional material.
With 15 years of experience in bamboo material, BambooBebe is trying to provide the pure softness from nature.

Bamboo Signature

BambooBebe Main Fabric

The optimal weaving method smooths the surface by rotating the compressed bamboo yarn one more time.

Bamboo Airy

A combination of bamboo & cotton

The weaving process which combines bamboo and cotton fibers of different thicknesses helps increase its breathability and absorbency.

BambooMesh

A combination of Bamboo & Mesh

Made by alternately weaving bamboo threads of two types, plain & mesh which means less deformation, great durability and good tension of fabric. Fine holes offer a great ventilation that leads to refreshing and cooling wear.

3 Layer of Jacquard

A representative of snugness and softness

Made of 3 layer jacquard fabric, it provides softer touch and ensures durability by keeping fabrics from getting twisted in the wash.

Double Loop

Superior softness + absorbency

Bamboo fiber for the loop that touches the skin, the inner loop with microfiber for both absorption and softness.

BambooModal

A combination of softness & softness

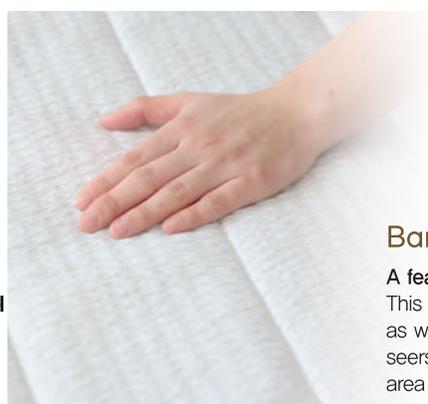

Bamboo modal is soft, snuggle and as lightweight as feathers. This is our own self developed premium material which provides a softer and more comfortable touch.

Micro Bamboo Cotton

Make your bed at home like a hotel

Composition of bamboo & premium microfiber & cotton allows a sung feeling like a hotel bedding.

Bamboo Seersucker

A feast of coolness

This provides softness with bamboo fabric as well as cool feeling with embossed seersucker which reduces skin contact area and increases breathability.

WE NEED AVERAGE, 30~40 PIECES / DAY OF BABY GAUZE HANDKERCHIEFS

Gauze handkerchiefs are one of the most frequently used baby textile products which are in direct contact with baby skin. That's why we put great effort into this item.

size 38x38cm

Signature Village Embossed Hankie

Embossed Fabric
Material 70% Bamboo Rayon, 30% cotton
size 38x38cm

Pretty one or Good one?

When the 1st edition of gauze handkerchief launched in the market, it was considered as a boring handkerchief with minimalist printings on a pure white background.

But soon Korean moms realized that a handkerchief is one of the most frequently used items and is used for the most delicate skin parts of babies. They care more about the quality of fabrics instead of pretty designs.

BambooBebe gauze handkerchief soon changed the market trend and became a must-have item.

Using instead of disposable baby wipes.

THE 1st IN KOREA! OEKO-TEX CLASS 1 FOR FINISHED PRODUCTS

Not Just Use Certified Bamboo fibers.

BambooBebe is certified
Oeko-TEX for the whole finished products
from yarns and fabrics to the printings and labels.

We annually renew Oeko-tex class 1 certificate regardless
of high costs(check the expiry date of the certificate).

Using as baby bibs
with simple designs.

The more intensive the skin contact of a textile product,
the stricter the limit values for each product class.
BambooBebe Gauze Handkerchiefs and Multi-Use Cloth Diapers are certified
Oeko-TEX Class 1 which is applied for products of babies under 3 years old.

※ OEKO-TEX® is one of the world's best-known labels
for textiles tested for harmful substances.

REUSABLE CLOTH DIAPER FOR MULTIPLE USE

BambooBebe thinks of babies, mothers and nature.
Our designs and materials are based
on the baby's movement and to make parenting easier.

Moreover, by using eco-friendly bamboo material and providing reusable products,
we would like to make a better environment for our next generation.

BambooBebe cloth diapers are considered the nation's diapers
in South Korea due to its ultra softness and the availability of multiple uses.

BAMBOOBEBE IDEA ITEMS

BambooBebe's story begins with a Korean mom for his son "Muk".
That's why bamboobebe tries not to miss even the smallest delicacy.

We add sincerity and innovation to what it existed before.
We keep thinking and adjusting for the best and never compromise with easier ways.

These delicacies and concerns come together to create
BambooBebe's star items and idea products.

Orosy baby laundry detergents are made of plant derived ingredients to use safely, and a perfect combination with BambooBebe products.
