

Even a small part,  
we make it for sure

Vernox tableware is even more special because it was made personally at the craft workshop and selected by the designer.

It is coated with German natural wood finishing oil to increase durability and ensure safe use.

—  
The birch wood, which is mostly used as a furniture material, has a dense structure and excellent elasticity. Especially, it has no smell, so it is suitable for kitchenware.

There is a step on the back, so it's convenient to carry and place.

## Vernox's stainless steel surface treatment is special.

Surface treatment is performed based on 30 years of technology on stainless steel materials supplied by POSCO

The vibration surface, completed with high-performance equipment, **adds dignity to the kitchen** with its sense of depth and unique texture.

Not only practicality  
but also atmosphere creation!

Deco plates that can be used for various purposes  
by combining materials!
